SUMMARY

Experienced Full Stack Developer with 4+ years of experience building responsive user interfaces and delivering high-quality web applications. Skilled in React.js, Next.js, JavaScript, CSS, HTML, and full-stack technologies. Proven track record of collaborating with teams to exceed business goals. Strong problem-solving skills and a commitment to writing clean, efficient code ensure project success.

SKILLS

Frontend Development: Proficient in React.js, Next.js, JavaScript, TypeScript, HTML, CSS, and React Native with a focus on building robust developer tools

Backend Development: Java, C#, ASP.NET, Node.js, Express.js, Python

Database: SQL, MongoDB, PostgreSQL

Cloud Platforms: AWS, MS Azure, GCP

Tools & Technologies: REST APIs, Git, Docker, Kubernetes, Kafka, OAuth, OpenAPI, PowerShell, Bash scripting

Testing & DevOps: Jest, Cypress, Mocha, TDD, CI/CD (GitHub Actions, Azure DevOps), SonarQube

Project Management & Collaboration Tools: Agile methodologies, Jira, Confluence, and cross-functional team collaboration

PROFESSIONAL EXPERIENCE

Software Developer, Qord Inc.

11/2024 – present | Waterloo, Canada

- Developed full-stack features in a cloud-native architecture using React.js, Node.js, and PostgreSQL on AWS.
- Built secure and scalable REST APIs consumed by enterprise clients, ensuring 99.99% uptime.
- Contributed to microservices infrastructure and implemented CI/CD pipelines with GitHub Actions and AWS CodePipeline.
- Collaborated with cross-functional teams on architectural decisions, ensuring high availability and performance of services.

Full Stack Developer, Accenture

07/2021 – 08/2023 | Pune, India

- Led frontend development for enterprise applications using React.js and Redux; integrated with Spring Boot microservices.
- Designed RESTful APIs and managed backend services on Azure, improving service response times by 35%.

- Used Kafka for event-driven communication between distributed services.
- Implemented automated testing practices, increasing code coverage to 85% across modules.

Software Engineer, Harbinger Systems

07/2019 – 06/2021 | Pune, India

- Contributed to web-based HRTech products, leveraging MongoDB, Node.js, and React.
- Developed modular components and reusable UI patterns, reducing feature delivery time by 25%.
- Participated in architectural reviews and migration to containerized infrastructure using Docker and Kubernetes.

PROJECTS

WealthWise – Expense Tracker SaaS App,

02/2025 – present

Personal Finance Tracker with AI Receipt Scanning 

- Built a personal finance tracking web app using React, TypeScript, Tailwind CSS, Supabase, and Prisma.
- Integrated Gemini AI for automatic receipt scanning and transaction data extraction.
- Developed modular architecture and dynamic visualizations for user expense insights.
- Emphasized performance optimization and scalable backend integrations.

EDUCATION

Savitribai Phule Pune University,

07/2016 – 07/2019 | Pune, India

Bachelor's in Computer Engineering

CGPA - 8.3

Zeal Polytechnic, Diploma in Computer Engineering

07/2013 – 07/2016 | Pune, India

Percentage - 82%
